**Actions to stop doing:** Stop doing all of the tasks in the last week of the sprint; Stop missing meetings and having poor communication.

**Actions to start doing:** Start working on tasks sooner, and make sure everyone is working on something. Be more explicit about who will do what task; Meet at a fixed time and place, communicate better.

**Actions to keep doing:** Keep working together on tasks, keep communicating about what tasks are being worked on and what tasks still need to be completed.

## Work completed:

### User stories:

1. As a playlist owner I want to be able to reorder, shuffle and delete songs to control the playlist.
2. As a user I want to see my playlist update dynamically when other users collaborate on it.
3. As a playlist owner I want my playlist to appear on my spotify account when I create it.

### Tasks:

1. Be able to reorder songs in a playlist.
2. Add button to delete songs from a playlist.
3. Create playlist in spotify with the same title.
4. Every time a transformation function is called on the playlist, be able to update it on the app.
5. Be able to stream the spotify playlist.
6. automatically refresh screen when another user updates the playlist.

### Work completion rate:

User stories completed: 3

Total number of ideal work hours completed: 17

Total number of days: 14 days

User stories per day: 3 user stories per 14 days, or 0.21 user stories per day

Ideal work hours completed per day:  $17 / 14 = 1.21$  ideal working hours per day
