User Stories:

1. As a user I want to be able to share my collaborative playlist with others via social media to engage with a larger group of friends. **3 points**
 - a. Task 1: Add share functions to share the code. (3 hours)
 - b. Total Time for User Story 1: 3 hrs
2. As a playlist owner I want to be able to reorder, shuffle and delete songs to control the playlist. **8 points**
 - ~~a. Task 1: Be able to reorder songs in a playlist. (3 hours)~~
 - ~~b. Task 2: Add button to delete songs from a playlist. (2 hours)~~
 - c. Total Time for User Story 2: 5 hrs
3. As a playlist owner I want my playlist to appear on my spotify account when I create it. **8 points**
 - ~~a. Task 1: Create playlist in spotify with the same title. (2 hours)~~
 - ~~b. Task 2: Every time a transformation function is called on the playlist, be able to update it on the app. (2 hours)~~
 - ~~c. Task 3: Be able to stream the spotify playlist. (3 hours)~~
 - d. Total Time for User Story 3: 7 hrs
4. As a user I want to see my playlist update dynamically when other users collaborate on it. **5 points**
 - ~~a. Task 1: implement socket.io to automatically refresh screen when another user updates the playlist. (5 hours)~~
 - b. Total Time for User Story 4: 5hrs
