High-Level Goals

- Create a social playlist to share and enjoy everyone's music.
- The playlist owner can reorder or delete songs and all the users can add music.
- Users can also vote to reorder or remove songs with a majority.
- Create a diverse, social environment to share and discover new music.

User Stories for Release

Sprint 1

As a student I want to take time to acquaint myself with the technologies so that I can be an effective and productive team member. **5 points**

As a user I want to be able to login to spotify through this website to use their functionality. **2 points**

As a user I want to be able to search the spotify archive to choose music to add to the playlist. **8 points**

As a user I would like the design and styling of the site to be clean and simple to make the site understandable and easy to use. **13 points**

As a user I want to be able to stream the playlist to enjoy my collaboration. **2 points**

Sprint 2

As a playlist owner I want to be able to invite friends to my playlist so that we can share music. **5 points**

As a playlist owner I want to be able to reorder, shuffle and delete songs to control the playlist. **8 points**

As a listener I want to be able to vote to reorder or delete songs to control the playlist. **2 points**

As a user I want to be able to save my collaborative playlist back to my spotify account so I can listen to, and enjoy it later. **2 points**

As a user I want to be able to share my collaborative playlist with others via social media to engage with a larger group of friends. **3 points**

As a user I want to be able to communicate via chat so I can socialise with other users.
3 points

Sprint 3

As a host I want to be able to make my playlist public or private, to share with only friends, or with the world at large. **8 points**

As a user I want to be able to browse and discover online collaborative playlists to discover and listen to new music. **8 points**

As a user I want to be able to join online playlists to collaborate with people everywhere.
8 points

As a playlist owner I want to be able to limit my playlist to certain genres or artists to keep my playlist better curated. **8 points**

As a user I want to be able to add song files from my phone or computer so I can have a more diverse pool of songs to choose from. (mp3?) **13 points**
